Re: Ultradent Products, #S0450057, Tooele County

Dear Mr. Haddock,

Pursuant to my conversation with Tom Munson this morning, this is to confirm that we do only hand work on our mining claim; no mechanized equipment is currently used there, nor do we expect to do any work requiring such in the future.

In the late spring or early summer, we will request a site inspection in order to close out our permit.

Sincerely,

Peter Allred
